COMPANY PROFILE

Since 1985 AVP Mfg & Supply Inc has been developing its activity in the satellite, telecommunications and broadcast equipment field. AVP also engages in designing and manufacturing connectors and professional audio and video patch panels. AVP is a company committed to expansion and focused on new technologies. It is constantly investigating and developing new products that meet the customers' requirements. Thus, AVP was awarded with the "Editor's Pick of Show" during its introduction at the National Association of Broadcasters (NAB) held in Las Vegas in 2000.

Products:

- Patented Mosaic Product line with Circuit Identification System(CIS)
- Patented Rapid Punch(RPT) Jackfields and Wall Blocks
- Patented Award-winning Morph System Audio Jackfields
- SuperHD+ Ultimate Serial Digital Video Jackfields
- RS422/Datapatch Jackfields
- EDAC Connectorized Jackfields
- Patchcords and Cable Assemblies
- Custom Telecom and Satellite Panels
