

SERATEL Technology, Spanish renowned FM transmitter manufacturer is once again at the NAB show in Las Vegas.

This fair is considered the most important annual event in broadcast field so it is the best place for us to meet our customers, show our innovations and to develop new opportunities of business.

Our catalogue includes FM transmitters but many other RF products as STL systems, amplifiers, Stereo and RDS encoders, antenna systems and notch filters.

Nowadays, we have a brand new family of solid-state FM transmitters called COMPACT SERIES.

These new LDMOS devices join highest efficiency and low energy consumption with an amazing reduced smart design.

Exciter is built-in by default and, optionally, Stereo and RDS encoders apart from Remote Control System (over internet/mobile phone) can also be built-in.

COMPACT SERIES FM Transmitters, output power from 20W to 20kW, are available for sale right now.

We will gladly show them to every visitor in our stand, booth number C1151.

Don't think twice ... visit us!
