### COMPANY PROFILE

ATANA, Association of ICT Companies of Navarre (Spain), is a non-profit enterprise association, established in 2002, with the aim and commitment of promoting the Information and Communication Technologies (ICT) development in the province of Navarre. ATANA represents the ICT sector by defending its rights and supporting it in terms of research, continue education and promotion in internal and external markets.

ATANA represents more than 70 companies that develop, investigate, manufacture and/or commercialize products related to the Information Communication and Electronic Technologies. The main activity fields of the associated companies are: system management, production management, enterprise applications, consulting, security and multimedia among others.
