**COMPANY PROFILE**

B-kin is a pioneer in offering "Software as a Service" **CRM** and **E-mail marketing** solutions to small and medium businesses. For more than 10 years, B-kin has developed a unique platform to provide **online services**. Different communities of users share hardware, software and communication resources with the maximum degree of privacy for critical business data. Our customers have had the vision to follow us in the revolution that is transforming enterprise applications into online Internet-based services. As we grow and enter new markets, we reach for small and medium businesses ready to take advantage of the reduction in cost and risk now possible in enterprise software, thus empowering them to compete with the best tools at a very affordable price.
