COMPANY PROFILE

The MADRID CCI is one of leading Chambers of Commerce in support of Innovation and new technologies. It promotes the e-commerce among the SMEs through different programmes. The Chamber also promotes the e-commerce certifying the security of the transactions between the companies. The MADRID CCI has also detected some best practices in innovation and holds

conferences and seminars related to innovation and new technologies.

The MADRID CCI and PROMOMADRID, as a result of the agreements signed among both institutions to spur the international activities of Madrid firms, have launched a program to support the participation of Madrid firms at CeBIT 2008.

Our goal is to promote Madrid firms working in Information Technologies, Telecommunications, Electronics, Software and Related Services abroad, and to rise the competitiveness of Madrid firms in the international markets.
