### COMPANY PROFILE

Cardiplus is a Spanish company, located in the south of the country, in Seville. Cardiplus develops its activity in the medical field, in telemedicine to be precise, with a large experience of 14 years in this sector. The main product created by Cardiplus is the transtelephonic system of electro-cardiology, which is composed of the CARDIOTEST Plus device and the Cardiology Center.

The CARDIOTEST Plus device is a portable electrocardiograph with transtelephonic capability and infrared connections. With this device the customer can record 4 thoracic leads ECG, 12 leads in a minute. Cardiology Center receives the patients electrocardiograms with an uninterrupted service 365/24h
