COMPANY PROFILE

Sallen Group set out in 1988 as Sallen Electronica was born to technological investigation, which has enabled us to become a leading group in the Spanish security market. It was achieved thanks to the research made in bank automation, which has led to very important advances in the handling verification and control of cash. Sallen Electronica is equipped with 7000m2 and highly qualified staff, dedicated to R & D and the manufacture of our patented systems.

Today, Sallen Group organizes his sale activity as two differentiated areas of business:

- * Money handling Area (Banknote fitness sorter, banknotes counters and detectors of false Euro banknotes)
- * Security Area (perimetral alarm of optical fiber)

In the Cebit, we present the products of the Money Handling Area as:

- * Banknotes Sorters SICLO F3 and SICLO F2 with Fitness process
- * Banknotes counter CV1100 and CV 1000 for Euro Banknotes
- * Detector/Authenticator laser EuroScan of Euro banknotes
- * Detector EuroContact of false Euro banknotes
