### COMPANY PROFILE

Gote S.A. is a telecommunications distributor company that was created 24 years ago. At the moment we have 2 different branches one in Valencia and another one in Zaragoza and this year a new logistic distribution facility will be open in Requena (Valencia). The brand gtlan is our own brand which we manufacturer and we distribute trough electrical and telecommunication warehouses all around Spain. We now think is the moment to show and sell our products in Europe. We can offer a complete product range for any network installation. The cabinets we offer can meet all the requirements for any cabling installation and they offer the customer all the necessary without any complicated catalogue, we want to make networks easy.
