COMPANY PROFILE

Iberselex, founded in 1985, with a solid base in Europe and USA markets, is strongly engaged in the opening of new marketplaces.

Specialized in the manufacturing, design, and commercialization of Banking Machines for handling coins & notes and Automated Payment Systems Machines.

Experience, technological knowledge and R+D+i Department allow Iberselex to develop its machines for three major areas of market: Banking, Coin Operated Machines (vending, amusement, etc.) and developing of special systems for automation of payment process.

NEW in CeBit 2008:

GASVI MILLENIUM / automates invoices payment. Gasvi Millenium are the 24 h. self service payment services that enables any Bank, Utility Company or Government Institution to automate the cash payment their clients make.
