### COMPANY PROFILE

Mobile System Communications based in Madrid (Spain) was established in 1995, our goal is to develop, manufacture, distribute and maintain equipment in the GPS sector.

We are specialist in tracking and Fleet management systems. Our own developments and manufacture lines are directed to M2M solutions provided with GPS/GPRS/UMTS technology, to vehicles, aviation, navigation and people.

Our R+D can develop a product based on our customers needs both in hardware and software. We can offer our own developed ITMOS platform ([www.itmosweb.com](http://www.itmosweb.com)) or can develop by our customer's standards, a specific solution for them.

Our products include M2M tracking devices, personal tracker, GPS repeaters, GPS antennas, GPS Vandal-proof antennas, GPS antennas for aviation, multi-service antennas for GALILEO system.
