COMPANY PROFILE

RYMSA (Radiación y Microondas S.A.) is a hundred per cent Spanish owned private company with the greatest expertise in the design, project engineering and manufacturing of high quality antenna systems and accessories for the broadcast, telecommunication, space and defence markets. Since its foundation in 1974 the company has grown in a very outstanding way, becoming a world leader in the professional antenna market. With a staff of more than 300 people today, the premises of the factory in Arganda del Rey (Madrid) span for more than 270,000 square feet. Two RYMSA subsidiaries are currently operating in Mexico and the U.S.

Products:

- Antenas
- Power Splitters
- Channel Combiners
- Aural/Visual Combiners
- Components & Accesories
- Cellular
- Multiacces
- WLL
- VHF
