### COMPANY PROFILE

CS-Time is the newest invention brought to you by Singular-Tech, the company founded by Grupo SPEC, who have been leading the market in time & attendance and access control systems for the last 28 years in Spain, from the day were established.

From the drawing board and production room right through to installations and customer service, SPEC offers solutions to thousands of customers all over the world. Thanks to their exertion in innovation, SPEC is one step ahead of the rest in time & attendance, access, and production systems.

To expand their business, Grupo SPEC founded Singular-Tech who resolves the needs of any businesses world-wide.

Singular-Tech has a network of accredited distributors, who thanks to on-going training can guarantee immediate and efficient support.

SINGULAR TECH is responsible for providing Grupo SPEC's products, creating distribution networks all over the world and coordinating all the resources to ensure that a fast and efficient service is provided to the distributor.
