

VECTOR 3

HALL 7 STAND C01

VECTOR 3 is a world class leading software provider for master control room automation and playout. Vector 3 famously manufactures VectorBox, the most prestigious channels-in-a-box solution.

This year, Vector 3 will be presenting its new Vector Multiplay architecture for multichannel that adds to the traditional values of the company products (the best user interface, the wide support of routing products and the compatibility with any file format and playlist) a revolutionary redundancy management.

PRODUCTS

- VectorBox Multiplay range
- VectorBox
- HD/SD Simulcast solution
- MediaCopier: Media Share and Management solutions.
